Complete Manufacturing Expertise
For All Your Home Textile Needs
Plucking from Nature’s Empire

VISION & MISSION

Our vision is to provide customers with cutting-edge products at highly competitive prices, delivered to their doorstep on time.

Our R&D section ensures that new innovations and eco-friendly products are constantly introduced in the industry. This is done by selecting the finest cotton and other raw materials which is backed-up by state-of-the-art machinery and a team of highly qualified professionals.
WHAT WE DO?

In the early 90s, Cotton Empire commenced operations with a pre-dominant cache for excellence in exporting quality Home Textile products not only in the competitive MENA region but emerged soon to stretch its expertise across the global markets.

The company wields state-of-the-art machinery with advanced features to produce superior quality textile products:

The company
Cotton Empire
Factory / Head Office:
A - 33 (C), Textile Avenue, S.I.T.E.
Karachi - 75700, PAKISTAN

is granted authorization according to Oeko-Tex® Standard 100 to use the Oeko-Tex® mark, based on our test report 12.0.13347

CONFIDENCE IN TEXTILES
Tested for harmful substances according to Oeko-Tex® Standard 100
11.HPK.92713
Hohenstein

for the following articles:

Home textiles (bed sheet, fitted sheet, pillow cover, duvet cover, sheets, curtains, terry towel) made of 100 % cotton and cotton/polyester, dyed and printed, including accessories (sewing and embroidery threads, labels, elastic tape) exclusively produced from materials certified according to Oeko-Tex® Standard 100.

The results of the inspection made according to Oeko-Tex® Standard 100, product class II have shown that the above mentioned goods meet the human-ecological requirements of the standard presently established for products with direct contact to skin.

The certified articles fulfill the requirements of Annex XVII of REACH (incl. the use of azo-dyes, nickel, etc.) as well as the American requirement regarding total content of lead in children’s articles (CPSIA; with the exception of accessories made from glass).

The holder of the certificate, who has issued a conformity declaration according to ISO 17065-1, is under an obligation to use the Oeko-Tex® mark only in conjunction with products that conform with the sample initially tested.
